**Re: Summer Examinations Timetable**

Please find enclosed an updated version of the summer exam timetable which was recently issued at Parent's Evening. Please put this up on your fridge or in a prominent place in your home for you all to see.

Now exam entries have been submitted to the exam boards, it becomes very real for our students. With only 50 school days before the first exam, students will be involved in finalising coursework elements, finishing the content of the course and their focus will change to revision and retrieval of information in preparation for these upcoming exams.

This will become a stressful time for everyone, but with their focus firmly on these exams your child will set themselves up for the future.

As a school we are always here for you and your child with any questions or queries you may have, so please do not hesitate to contact us. Some key contact information is below:
